

Renal Access Clinic of Houston
Caring for Your Dialysis Lifeline

Pre-Operative Instructions for Catheter Removals

- **Do NOT** take any blood thinner medication **48 hours** prior to your procedure to remove your catheter. Please call the office if you have any questions regarding this issue. (Coumadin and warfarin, Aspirin, etc.)
- Sedation is not used for this procedure however the area will be numbed with lidocaine for patient comfort. There is no need for a driver for this procedure.
- Please allow adequate time for your procedure. In some cases there may be a delay starting your procedure, since we receive many emergencies from dialysis centers. We ask for your patience and understanding in this matter.
- If you are not able to keep your appointment and/or need to reschedule, please call our appointment desk at **713-838-2300**, they will be more than happy to assist you.

We know you have a choice in your healthcare and appreciate the opportunity to be a part of that process. All of us at the Renal Access Clinic of Houston and thank you and wish you well.
